

FROM SURVIVAL TO REVIVAL

It's great we can all be together in the room again!
As we regroup and move steadfastly forward with everything we've experienced and learned in the past 2-plus-years, it's a great time to take stock of who we are and why we're here.

Who we are

In just seven years, we've grown a great deal.
And as Nova Scotia's population and economy continue to expand, the Charter will follow suit, both in size and impact.

Why we're here

As leaders, we know it's within us to make the smart and crucial decisions every day that will lead to positive change in the lives of many thousands of Nova Scotians. As we strive each year to improve the numbers below, we know that they're not numbers at all.

They're people. And they are why we're here.
